FACTORY LIST OVERVIEW

Our focus on inclusivity and well-being is embedded in how we operate as a business and engage with our stakeholders. We want our products to be made by workers whose safety and human rights are respected, which is why transparency is so important to us.

Our priority so far has been to assess business practices across our supply chain, aligning compliance to international and localised best practice. By contributing data to the Open Supply Hub, we want to ensure accountability across our supply chain and improve facility transparency to the industry.

As we look to increase visibility across our tiers, we will continue to align and improve the standards N Brown has set.
